

Quality Isn't What We Do.
It's Who We Are.

QUALITASGLOBUS

FOOD ANALYTICAL SERVICES

FOOD ANALYTICAL SERVICES

When it comes to food safety, quality is paramount. That's why our food analytical services are so important. By testing food products for contaminants and ensuring that they meet quality standards, our services help to keep the food supply safe and nutritious. In addition, we can also help to identify potential problems with food production and processing. As a result, our food analytical services play a crucial role in protecting public health.

Our Food Analytical Services include:

- 1. Composition Analysis**
- 2. Food Forensics**
- 3. Food Label Service**
- 4. Food Safety Testing**

COMPOSITION ANALYSIS

Our composition analysis services help you to understand the nutritional content of your food product. This is important information to have if you are selling a food product, as it allows you to ensure that your product meets all regulatory requirements. We can also help you to optimize the nutritional content of your product to make it as healthy as possible.

FOOD FORENSICS

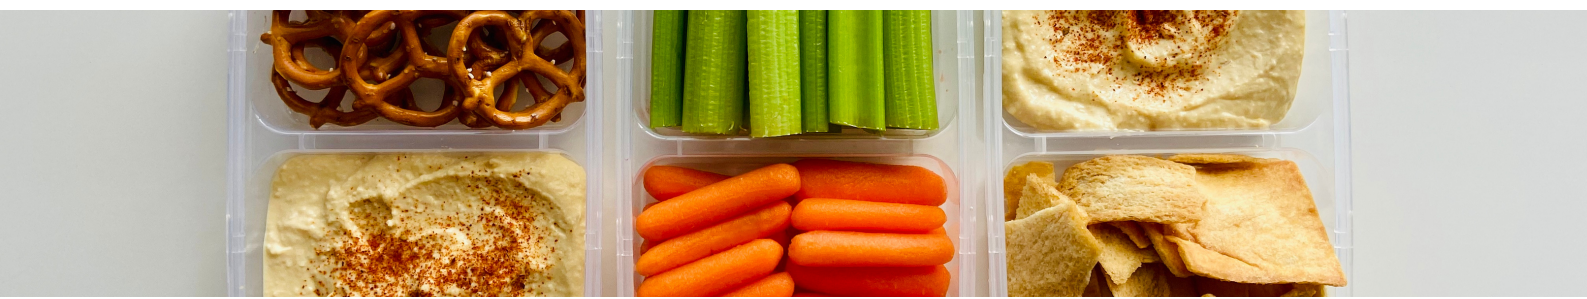

Food forensics is a term that encompasses a wide range of activities. From investigating food fraud to determining the cause of a foodborne illness outbreak, our team of experts has the experience and knowledge to get to the bottom of any issue. We use the latest analytical techniques and tools to provide our clients with accurate and actionable information.

FOOD LABEL SERVICE

Are you looking for help with your food labels? Our label service can help you to create compliant and accurate labels for your food products. We can also help you to design your labels in a way that will appeal to your target audience. Whether you need help with nutrition facts panels or allergen statements, our team is here to help.

FOOD LABEL SERVICE

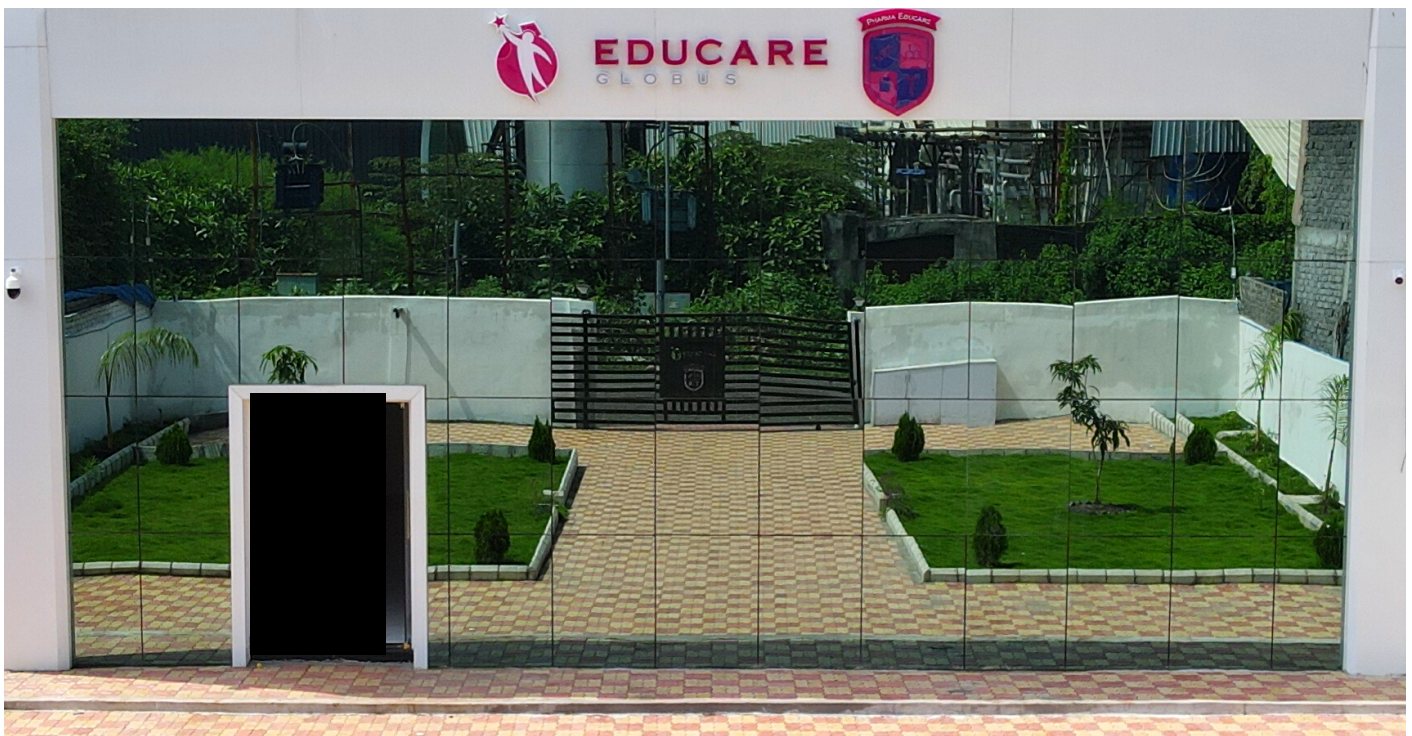

Food safety is always a top priority for both consumers and regulators. That's why we offer comprehensive food safety testing services. We can test for a wide range of contaminants, including pathogens, pesticides, and chemicals. We also offer shelf-life testing services to ensure that your product will remain safe for consumption throughout its entire shelf life.
